

## Give Hope RV: Background Story

This camper is a dream that is coming to reality!! *Dave & Melissa Tubergen* are excited to be partnering alongside of **Mosaic Foster and Adoptive Ministry**, to offer this place, this camper, as a place of respite. A place for foster and adoptive families from both near and far to come and rest, recoup and spend precious time together as a family.

Families that are involved in foster care and adoption are families that are constantly transitioning. That transition can be stressful on the family unit as a whole and we know that it is so valuable to have a place to go and regroup together and without any distractions. We, the Tubergen family, are a family that has been in transition for the last few years and we know how blessed we have been by our parents who have opened up their camper to us so that we could have a place to kick back, get away, rest and recoup. To not be distracted by the daily norms and to just be a family.

The use of this camper is specifically for foster and adoptive families to use for **FREE!** Pray that it will be a source of great encouragement. That families will grow together and be able to rest their weary souls.
